

08-12 Jan 2023

Venue - Novotel, HICC, Hyderabad

Student Research Forum

Overview

The 36th International Conference on VLSI Design and Embedded systems (VLSID 2023) is the premium global event held in India in the field of VLSI Design and Embedded systems, bringing together stakeholders that includes academia, industry, R&D houses and policy makers in the field of hardware and software system design, verification, test, EDA tools development, and manufacturing of electronic circuits. It is a flagship event of VLSI Society of India (VSI). To promote and encourage the young researchers in the domain VLSI Design and Embedded systems, a Student Research Forum will be organized during the conference.

The forum is a great opportunity for Bachelors, Masters and PhD students who have completed their respective thesis within the last 12 months or who are close to complete their thesis to present their work to a board audience in the VLSI Design and Design automation community from both industry and academia, which promises to enable advancements in Computing, Connectivity, Energy Management, Photonics, Optical Communications, RF/Digital/Analog Circuit Design, Sensors, Embedded Systems, Neuro-morphic Systems, Beyond 5G/6G, 2D/3D packaging, Test & Reliability, and more. This forum will help students to interact with pioneer in their works. The forum may also help students to establish contacts for entering the job markets. Applications are invited from the eligible young researchers across India for the Student Research Forum.

Call for Submission

Final Date of Submission	Acceptance Notification	Final Presentation
Closed	Closed	15 Dec. 2022

Submission

- A student who has Bachelors, Masters or Doctoral program in any recognized University or Institute on or before 1st January 2020 and the student is working in research topics relevant to the conference.
- Students should submit filled up application form (refer <https://vlsid.org> website for details)
- A copy of the valid identity cards or a letter from the Head of the Department/Institute for the currently enrolled students. For graduated students, a copy of the degree certificate (or the provisional certificate) is sufficient.
- There would be a two-tier selection process. The initial shortlisting would be done by the Selection Committee based on the merits of the submission.
- Incomplete submission will not be considered for the selection process.
- The shortlisted nominees will be invited to make an online presentation before the Selection Committee during conference.
- The Selection Committee would then recommend the nominee for conferment of the Award.
