

STUDENT RESEARCH FORUM

CALL FOR SUBMISSIONS

Abstract Submission	Acceptance Notification	Final Presentation
21 Dec'21	22 Jan'22	07 Feb'22

OVERVIEW

The 35th International Conference on VLSI Design and Embedded systems (VLSID 2022) is the premium global event held in India in the field of VLSI design and embedded systems, bringing together stakeholders that includes academia, industry, R&D houses and policy makers in the field of hardware and software system design, verification, test, EDA tools development, and manufacturing of electronic circuits. It is a flagship event of VLSI Society of India (VSI). To promote and encourage the young researchers in the domain VLSI Design and embedded systems, a Student Research Forum will be organized during the conference.

The forum is a great opportunity for Bachelors, Masters and PhD students who have completed their respective thesis within the last 12 months or who are close to complete their thesis to present their work to a broad audience in the VLSI design and design automation community from both industry and academia, which promises to enable advancements in Computing, Connectivity, Storage and Sensors and can lead to path breaking developments in the areas such as AI/ML, 5G, Mobility, Cloud, Edge and more. This forum will help students to interact virtually with pioneer in their domain of research and getting valuable feedback on their works. The forum may also help students to establish contacts for entering the job market. Applications are invited from the eligible young researchers across India for the Student Research Forum.

GUIDELINES

- A student who have enrolled in bachelors, masters or doctoral program in any recognized University or Institute on or before 1st January 2019 and the student is working in research topics relevant to the conference.
- Students should submit filled up application form (refer <https://vlsid.org/> website for details)
- A copy of the valid identity cards or a letter from the Head of the Department/Institute for the currently enrolled students. For graduated students, a copy of the degree certificated (or the provisional certificate) is sufficient
- There would be a two-tier selection process. The initial shortlisting would be done by the Selection Committee based on the merits of the submission
- Incomplete submission will not be considered for the selection process.
- The shortlisted nominees will be invited to make an online presentation before the Selection Committee during conference
- The Selection Committee would then recommend the nominee for conferment of the Award.
