

SWAPN: Accelerating India's Swadesi Product Nation: Electronics & Semiconductors

A Vision for a Self-Reliant Product Nation at VLSID 2026

The Vision

India is on an ambitious journey towards becoming a '**Swadesi Product Nation - SWAPN**,' a cornerstone of the **Viksit Bharat-2025** vision championed by our Hon'ble Prime Minister. This transformative goal calls for a robust ecosystem of indigenous design, development, and manufacturing in critical sectors like Electronics and Semiconductors.

Introducing the **SWAPN** Pavilion:

To accelerate this national aspiration, the VLSI Society of India is proud to launch the **SWAPN (Swadesi Product Nation)** Pavilion at the prestigious International VLSID 2026 conference in Pune. This dedicated pavilion is more than just an exhibition space; it's a vibrant platform designed to showcase the cutting-edge capabilities and innovative spirit of India's homegrown electronics and semiconductor industries.

A Hub for Innovation & Collaboration

The SWAPN Pavilion will be a dynamic showcase for 50 meticulously selected product companies, comprising:

- 25 leading Electronics Product companies
- 25 pioneering Semiconductor Product companies

This unique blend is intentionally curated to foster unparalleled collaboration. We envision a powerful synergy where electronics product companies, as potential customers, can directly engage with semiconductor innovators, driving mutual growth and strengthening the entire indigenous value chain.

Who Should Participate?

We are actively seeking innovators and manufacturers who embody the spirit of 'Swadesi.' Preference will be given to companies that:

- Have successfully designed and manufactured an electronics product within India.
- Are proudly supported under the MeitY's Design Linked Incentive (DLI) program, demonstrating a commitment to national strategic goals.

Unlocking Unique Value for Participants

Joining the SWAPN Pavilion offers a multitude of benefits designed to propel your company forward:

- **High-Visibility Showcase:** Present your radical products to a global audience of industry leaders, experts and potential partners at VLSID 2026.
- **Significant Financial Support:** To encourage and empower our indigenous champions, participating companies will receive a 50% discount on regular booth charges.
- **Strategic Networking:** Benefit from dedicated 1:1 networking opportunities thoroughly arranged between promising startups and discerning investors, paving the way for crucial funding and partnerships.
- **Direct Collaboration:** Engage directly with potential customers and suppliers within the pavilion, fostering new business relationships and accelerating product adoption.

Join the SWAPN Mission

Be a part of this pivotal movement to shape India's Semiconductor future. The SWAPN Pavilion at VLSID 2026 is your opportunity to demonstrate India's prowess in electronics and semiconductors, contribute to the '**Viksit Bharat**' vision and connect with the ecosystem that will drive our nation's progress.
